

## IFBB ACTIVITIES REPORT

July 2010

### WORLD CHILDREN'S FITNESS

I am coming back from Bratislava, Slovakia, where we held the 1st World Children's Fitness Championships attended by 90 athletes from 20 countries competing in 3 categories (8-9 / 10-11 and 12-13 years).

This has been a great success in the best spirit and unique environment of sport and family celebration.

In next coming days I shall forward you some pictures and videos that I am sure you will find very interesting and encouraging.

We already have requirements for the organization of 2011 edition.

As usual the Slovak Federation with great support from the national sport authorities offered a very skilful team and the best environment for this new World Championship that gives all the guarantees for the continued growth of fitness; a modality that as you know, is key for our future presence in multi sport events.

It is the fifth annual world championship, becoming a nice addendum to the other 4 world championships yearly organized by the IFBB (men's, women's, classic, junior's & master's).

Hoping you are pleased with this news and wishing you a nice summer season,

Rafael Santonja  
IFBB President
